

## Miracles Happen - Burping Pads

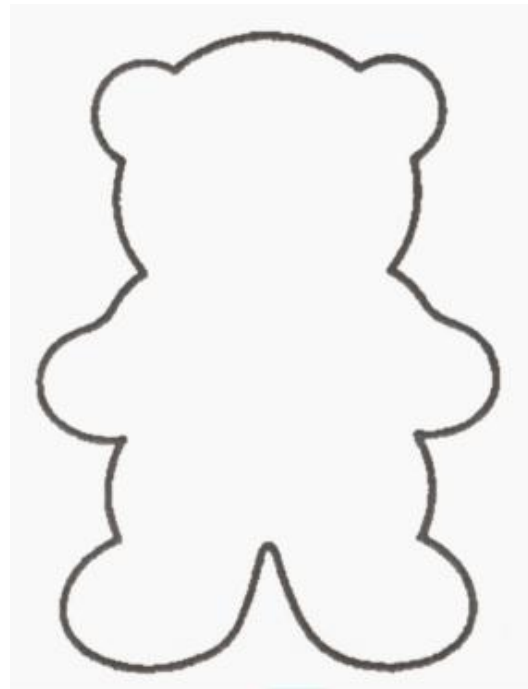

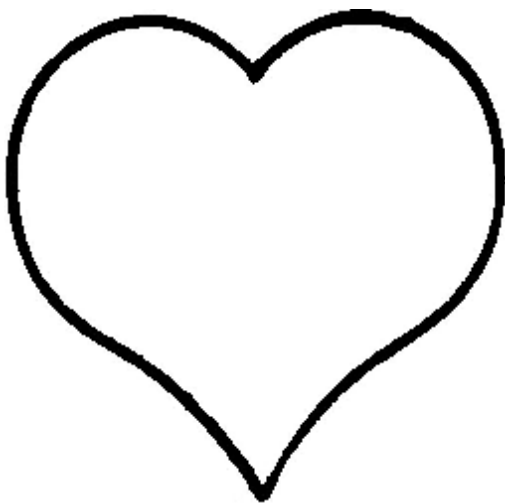

### Materials:

- Patterns for burping pad and quilting design (*bear or heart*)
- Terry Cloth fabric (*old towels...kitchen or bath towels; bleached and then washed in baby detergent*)
- Cotton fabric (old scraps of fabric of any design suitable for a baby) (*If fabric needs washing, use baby detergent*)
- Sewing thread to match

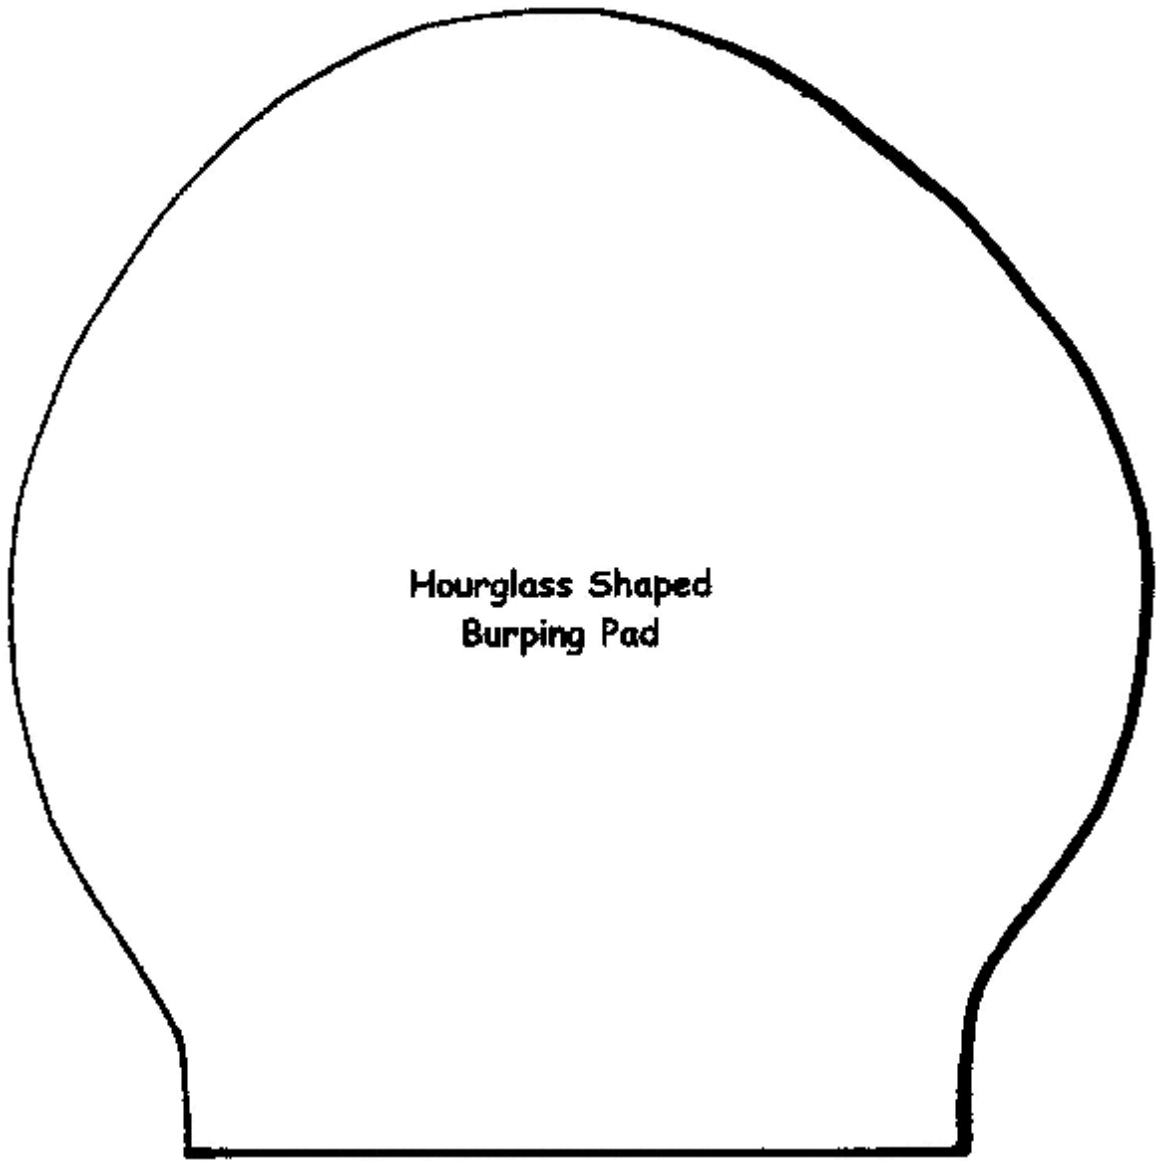

### Directions:

- On wrong side of cotton fabric, trace burping pad pattern (*hourglass or butterfly*).
- Pin right side of cotton fabric to right side of terry cloth. Sew fabrics together having stitches follow along the traced pattern, leaving an opening of about 3-4" to turn the burping pad.
- Cut fabric along edges, about 1/4" outside stitching.
- Cut notches along stitched edge of burping pad around curves.
- Turn burping pad right side out. Fold in unsewed edge and match fabric to terry cloth edge. Stitch opening closed, close to the edge.
- Stitch around entire edge of burping pad about 1/8" from the outer edge...sewing paper burping pad label to the margin.
- Press.
- With a pencil, lightly trace heart or bear shaped pattern onto each end of the burping pad.
- Sewing about 15 stitches/inch, sew along penciled design.
